Question 2.

In the second question, respondents ranked from 1 to 7 the importance of selected criteria for internationalization in your institution. For this question, 1 means “not important” and 7 means “very important”.

According to the percentage of the top two boxes (T2B), which means the very important topics and the rating average, the majority tells that the most important criteria is **Internationalization of curriculum and improvement of academic quality** with 84% of support and in general this criterion is rated with 6.36 of importance. The next is to **Improve students’ preparation for a globalized - internationalized world**, also with 84% of support and with 6.30 of importance in general. The third criteria is **Strengthening research** with 72% and a rate of 5.98 of importance. The fourth is Diversification of faculty with 64% of support and an average of 5.64. And the fifth is the **Improvement of the institutional profile and international reputation through the rankings** with 61% and an average of 5.73.
