Question 8.

In the eighth question, respondents were asked if the International Office in their universities is decentralized. They had to choose between three possible answers: if it was decentralized by Faculty of School, if it is decentralized by school of graduate and undergraduate students or if it is not decentralized.

As results, we got that the 73% of the universities is not decentralized. The 18.9% of the universities is decentralized by Faculty or School. The 8.1% of the universities is decentralized by school of graduate and undergraduate students.
